</table>

Cutting the Base Fabric
Cut 5 strips 5" x width of fabric. Subcut the strips into 36 squares 5" x 5" each.

Cutting the Appliqué Fabrics
Cut the fabric into 36 squares each 5" x 5".

Making the Blocks
1. Print the Clementine Block Diagram on the next page, making sure to print at 100% or with "no scaling." Place your ruler over the 1" registration mark on the diagram to confirm that it printed at the correct size.
2. Use the printed block diagram as a guide to make a template: Trace the appliqué shape, including the grainline guide, onto a piece of translucent template plastic and use craft scissors to cut it out.

3. Use a pencil and your template to trace 36 appliqué shapes onto the paper side of the lightweight fusible web. Cut out each shape, leaving a scant 1/4" around the traced edges.

4. Use the Block Diagram as a guide and follow manufacturer directions to fuse the cut pieces of fusible web onto the wrong sides of the 36 appliqué fabric squares. The grainline marker can be used a guide to help line print
fabrics up in a uniform way. However, you do not need to follow it if you don't want to.

5. Cut out each appliqué shape, cutting through the fabric and fusible web layers along the marked pencil lines. Carefully peel away the paper on the back of the appliqué shapes.

6. Use the Block Diagram as a guide and follow manufacturer directions to fuse the appliqués onto the right sides of the 36 block bases.

7. Use a zigzag or appliqué stitch to sew around the raw edges of each appliqué shape, pulling loose threads to the wrong side of the block when you're finished sewing. You should have a total of 36 finished blocks.

Making the Quilt Top
All seams are ¼” and all seams are pressed open, unless otherwise noted.

Arrange the blocks on your design wall in 6 rows of 6 blocks each, as shown in the Quilt Top Assembly Diagram. Sew the 6 blocks in each row together. Sew the 6 rows together to complete the quilt top.

Finishing the Quilt
From the backing fabric, cut 1 piece 35” x 35” for the quilt back.

From the binding fabric, cut 3 strips 2½” x width of fabric to make straight-grain, double-fold binding. Sandwich, quilt, and bind as desired.

Clementine Appliqué: Lap Quilt Variation

Finished Quilt: 45" x 55" • Finished Blocks: 4½" x 4½"

The lap quilt version is made by sewing borders around the smaller Clementine Appliqué Quilt. The borders are made with the same neutral solid fabric used in the smaller quilt top, giving the visual impression that the appliqué shapes are floating in a sea of negative space.

Yardages are based on fabric that is at least 42" wide.

Cutting Instructions
Cut 1 strip 27½" x width of fabric. Subcut the strip into one piece 27½" x 13½" (B) and 1 piece 27½" x 5½" (C).

From the length (along the selvage) of the remaining fabric, cut 1 piece 45½" x 23½" (A) and 1 piece 45½" x 5½" (D).
Making the Quilt Top
All seams are ¼” and all seams are pressed open, unless otherwise noted.

Use the instructions on pages 1-2 to make the 27½" x 27½" appliqué quilt.

Sew piece B to the left side and piece C to the right side of the small quilt top.

Sew piece A to the top and piece D to the bottom to complete the quilt top.

Finishing the Quilt
From the backing fabric, cut 2 pieces 53" x width of fabric. Cut the selvage edges from both pieces, and trim each piece to 53" x 22". Sew the 2 pieces together, matching the 53" sides.

From the binding fabric, cut 5 strips 2½" x width of fabric to make straight-grain, double-fold binding. Sandwich, quilt, and bind as desired.
If you have a local quilt shop that stocks fabric you like, I encourage you to give them your business! If you’re in Portland, be sure to check out my favorite local shops:

**Bolt Fabric Boutique**
2136 NE Alberta St
Portland, OR 97211
